Welcome!

Thank you for choosing New Pueblo Medicine, one of Tucson's oldest and most respected physician practices. Our doctors and staff value the trust you have placed in us and look forward to building a long and healthy relationship.

All of our physicians are board certified in internal medicine. Other members of the New Pueblo Medicine team include nurse practitioners, nurse care manager, a clinical pharmacist and a behavioral health specialist. We believe in the importance of preventive care and will work together with you to **treat** you well, **make** you well and help you **stay** well during your lifetime.

New Pueblo Medicine is one of the select practices in Arizona to use a Patient-Centered Medical Home model of care. This approach goes well beyond diagnosing and treating injury and illness. It means your primary care physician works in partnership with you, emphasizing disease prevention, wellness, patient education and healthy lifestyles so you can achieve your optimal health. This includes overall management of your health and any care you may need from other medical professionals.

For your convenience, a patient registration form is enclosed for you to complete and bring to your first appointment. You'll also find important information about appointments, office procedures and payment policies. We recommend that you visit our website at newpueblomedicine.com where you can find biographical information about your new primary care physician and other members of your Care Team.

On behalf of everyone at New Pueblo Medicine, we look forward to getting to know you and working together with you to achieve a lifetime of good health. If you have questions, please call me on my direct line: (520) 526-7551.

Sincerely,

Kim Haspert
Associate Director of Clinical Operations
